# Republican Women Believe:

-The strength of our nation lies with the individual and that each person's dignity, freedom, ability and responsibility must be honored;

-In equal rights, equal justice, and equal opportunity for all, regardless of race, creed, age, sex, national origin, or disability;

-That free enterprise and encouraging individual initiative have brought this nation opportunity, economic growth and prosperity;

-Government must practice fiscal responsibility and allow individuals to keep more of the money they earn;

-The proper role of government is to provide for the people only those critical functions that cannot be provided by individuals or private organizations, and that the best government is that which governs least;

-The most effective, responsible and responsive government is government closest to the people;

-Americans must retain the principles that have made us strong while developing new and innovative ideas to meet the challenges of changing times;

-Americans value and should preserve our national strength and pride while working to extend peace, freedom and human rights throughout the world.

*"As long as we have confidence in our values, faith in our citizens, and trust in our God—we will not fail. Our families will thrive. Our People will prosper. And our Nation will forever be safe and strong and proud and mighty and free."*

**President Donald R. Trump**
